our vision

To be Asia Pacific's best multimedia solutions group

We aim to shape communications and much more by unlocking the possibilities of the digital world for our customers.

our mission

**Breaking
Barriers,
Building
Bonds**

We believe that the world is a better place when technology is used to help people and businesses communicate effortlessly.

We make communication easier, faster and more reliable for customers, while delivering value to our stakeholders.

**You
&
SingTel**

**GROWING
TOGETHER**

For more than 100 years, SingTel has been growing with you. We connected the very first voice call in Singapore, and today we continue to connect you with the rest of the world. As technology evolves, SingTel remains committed to improving the way you live, work and play in the digital era.

What Differentiates Us

1 **CUSTOMER FOCUS**

We put our customers first in everything we do. Passion for our customers is part of our DNA.

2 **SUPERIOR NETWORKS**

Our extensive and resilient networks power the digital revolution. We are continually increasing speed and capacity, expanding coverage and investing to build new functionalities.

3 **DEEP DIGITAL COMMITMENT**

We are forward thinking in our strategy, constantly innovating to ensure we continue to lead and shape the communications industry.

4 **STRONG FINANCIAL PERFORMANCE**

The strength of our business and assets continues to shine through, even with the weakening of the Australian Dollar and regional currencies against the Singapore Dollar.

Our Strategy

To thrive in the digital era, we have put in place a dual transformation strategy to strengthen our core communications business and build new growth engines.

Chairman's Statement

Dear Shareholders,

The industry trends we discussed last year continued to unfold in FY2014.

LIVING IN THE MOBILE INTERNET ERA

People are consuming and co-creating increasing amounts of information, photos and videos on the internet with their smartphones, tablets and, in the emerging markets, feature phones. They are increasingly turning to cloud applications that provide easy storage and retrieval over multiple devices. Enterprises are similarly taking advantage of advances in cloud computing and enterprise mobility services to manage their massive and complex data over the internet.

OPPORTUNITIES AND THREATS

The increasing volume and variety of data are carried through telcos'

networks. The changes in customer behaviour have also brought new competition into the telecommunications space. Digital or over-the-top (OTT) companies now offer a myriad of online services and mobile applications, which threaten telcos' traditional revenue streams from voice, SMS, TV and data services.

The good news: the relevance of our network cannot be ignored – it is the highway for mobile data traffic, and puts us in an enviable position to address the growing demand for mobile data. We are in the right business and have the right assets to capture and monetise this growth.

Our goal is simple – we want to generate profitable returns by helping customers do more on their connected devices and networks. With this goal firmly in sight, we made good progress on our transformation plans in FY2014.

In our core business, we have restructured our voice-centric price plans to capture the growth in mobile data consumption. The new plans are a big step towards delivering returns on our network and spectrum investments.

We also streamlined our distribution, touchpoints, systems and processes to enhance operations efficiency and customer experience. SingTel is now stronger and more agile than ever to deal with the challenges ahead.

Our regional mobile associates are similarly reinventing themselves to capture the growth in mobile internet, with significant investments in mobile networks, spectrum and data-focused offerings targeted at emerging market consumers.

Group Digital Life is delivering to expectations, giving us the confidence to expand further into the digital space. However, with valuations of internet companies at record-high levels, we have been cautious in our investments. We are focused on investments with proven business models and cash returns, as well as businesses that can leverage the Group's scale of over half a billion mobile customers.

FINANCIAL PERFORMANCE

The Group turned in a resilient performance despite significant investments to support our business transformation and strong currency headwinds. Net profit for FY2014 rose 10% in constant currency terms. With the sharp declines in the Australian Dollar, Indian Rupee and Indonesian Rupiah, reported net profit grew 4%.

"Our goal is simple – we want to generate profitable returns by helping customers do more on their connected devices and networks."

The Board has recommended a final ordinary dividend of 10 Singapore cents per share, bringing the total ordinary dividend for the full year to 16.8 Singapore cents. This represents a payout ratio of 74% of our underlying net profit.

OUR COMMITMENT TO STAKEHOLDERS

We play an important role in society by facilitating consumer interaction and business communications. These in turn power economic growth and improve people's lives. We are committed to building better networks and bringing quality services to more people.

In October 2013, lapses in maintenance procedures led to a fire in an exchange facility in Singapore. It caused major service disruption to customers. Our independent Board Committee of Inquiry gave us a critical review of our operations and made recommendations to prevent a recurrence and ensure our network remains resilient. These have largely been implemented, and we are determined to raise our standards and ensure we continue to offer world-leading services to our customers.

In our community, we actively support vulnerable children and youths so that they can thrive and contribute to tomorrow's society. Our SingTel Touching Lives Fund has raised close to S\$28 million to support children and youth with special needs over the last 12 years.

We have also chosen to focus on cyber wellness. While the internet has brought numerous benefits, it also has risks. Children are increasingly vulnerable to cyber bullying, loss of privacy and access to inappropriate content. We recognise we can play a significant role in promoting online safety among vulnerable children and youth in this digital age and will launch relevant education programmes on cyber wellness. In Australia, together with education experts, we developed the Digital Thumbprint programme to educate students to be savvy, responsible and proactive members of the online community.

I want to thank the employees of the SingTel Group, whose efforts have helped us achieve so much in the past year. They remain the key driving force for our ongoing transformation and will be guided by an experienced and visionary management team.

Naturally, the strength of our executive team and management succession is a topic my fellow Board members and I spend considerable time on. Be assured that we have in place a comprehensive succession plan for key management roles, and diligently review it every year.

The Board is committed to the highest standards in corporate governance, and was recognised for its efforts when it was awarded The Best Managed Board at the Singapore Corporate Awards in August 2013.

In October 2013, the Board visited AIS in Thailand and experienced first-hand the game-changing developments that 3G networks are bringing to the country. We have established a Technology Advisory Panel, chaired by Mr Koh Boon Hwee, a former SingTel Chairman and a respected investor in the technology sector, to advise the Board in the area of digital technology.

I would like to thank my fellow Directors for their contribution throughout a busy year in FY2014. My sincere appreciation goes to Mr Dominic Ho, who will be stepping down from the Board after serving for six years. At the same time, we welcome Mrs Christina Ong, a leading banking and finance lawyer. Her appointment will bring an increased diversity of experience and skills to the Board.

Finally, I look forward to welcoming you to our Annual General Meeting in July.

GCEO Review

RESILIENT FINANCIAL PERFORMANCE

The SingTel Group reported strong growth in net profit and continued to make investments in the core telecommunications business and new digital businesses in FY2014. We achieved this performance against ongoing shifts in our broader industry and customer demand, as well as continuing foreign currency volatility. This showed the strength of our businesses.

Two-thirds of our earnings are derived from operations outside of Singapore. While this gives us earnings

diversification, the sharp declines in the Australian Dollar, Indian Rupee and Indonesian Rupiah against our reporting currency in Singapore Dollars impacted our results. Net profit rose 4% to S\$3.7 billion. On a constant currency basis, net profit increased 10%.

We are focused on delivering on our core business. We achieved cost improvements, increased productivity and launched new and innovative services and price plans. Our investments in the digital space are at an early growth phase and registered start-up losses.

STAYING AHEAD

Our story continues to centre on the digital revolution that is dramatically changing our lives. Better technologies, as well as a wider range of devices and content, have fed customers' appetite for doing more over the internet, anytime, anywhere. The mobile internet in particular has brought about many over-the-top (OTT) services, some of which compete directly with our traditional communication services.

At the same time, the underlying connectivity provided by telcos remains the glue that binds OTT providers to their customers. To keep up with the growing data traffic, we continue to invest in our networks to improve the speed and capacity of this connectivity.

We recognised this profound industry shift early on and have responded with our dual transformation strategy.

STRENGTHENING THE CORE

We are re-engineering and repositioning our core connectivity business, including our voice and data services, to thrive in the new mobile internet world. We are building new networks and IT functionalities, and making massive changes to lift customer experience. In addition, we are driving improvements in our cost structures and implementing new pricing and revenue models.

CREATING NEXT-GENERATION GROWTH ENGINES IN THE DIGITAL SPACE

We are leveraging our unique telco assets to develop new digital businesses and services that take advantage of the industry changes underway. We are engaging our customers differently with new services for their work, play, social interaction and other needs.

We are now two years into our transformation journey and have made progress in both areas. Success in our digital business must be anchored by our strong core business – building on its unique capabilities, scale and strong cash flow generation. Concurrently, our digital initiatives help our core business maintain its relevance with our customers and differentiate our services from competitors'.

GCEO Review

STRONG AND GROWING CORE BUSINESS

Our networks are what make the internet possible. To meet the insatiable demand for mobile data services, we have increased our investments in spectrum and mobile infrastructure, significantly boosting our network capacity, speeds and capabilities.

Across Singapore and Australia, we have invested S\$2.1 billion in our networks in FY2014 and expect to spend around S\$2.3 billion in the next financial year.

Our customers' feedback showed we have 4G network leadership in Singapore. In Australia, we will expand our 4G coverage and capacity with existing and newly acquired spectrum across multiple bands to drive growth in customer and data revenue.

The challenge our industry faces is not from any lack of demand for mobile data. The challenge is to put in place sustainable business and pricing models that enable telcos to continue to make the necessary investments in network capacity, speed and coverage. Revenue must keep pace with the cost of continued investment for better customer experience.

In our operations in Singapore and Australia, we have already introduced tiered data plans so that customers are charged fairly based on their data usage, while putting in place safeguards to remove bill shock. We will continue to refine our plans to achieve a more balanced distribution of scarce network and spectrum resources.

We are exploring various business models that will bring benefits to both OTT providers and end customers who use such OTT services. Our aim is to become the preferred network partner to customers and OTT providers alike.

Our efforts to lift customer experience have been rewarding. The positive results in our Net Promoter Scores across Singapore and Australia tell us that more customers are willing to recommend our services to their families and friends.

We are focused on extending our leadership in enterprise mobility, connectivity and managed network services. With strategic investments in data centres and international connectivity, we can better meet enterprise customers' increasing need for cloud computing and cyber security services.

HELPING OUR REGIONAL MOBILE ASSOCIATES PREPARE FOR THE FUTURE

In the emerging markets, mobile data usage is expected to grow significantly. With limited fixed-line infrastructure in these countries, the majority of the people's first and main contact with the internet will be through the mobile networks.

As such, our regional mobile associates have been focused on acquiring spectrum resources and are aggressively rolling out data networks in their respective countries. By working together as part of the SingTel Group, our associates can move more quickly

"There is no doubt that the future is a digital one, and those who are fast to adapt to the new reality stand to gain the most. We have been quick to recognise and respond to these changes."

to build the necessary data-centric capabilities, and create better products and operating models.

The Group's billing capabilities in the largely prepaid markets and our combined reach of over half a billion mobile customers provide a great platform for our digital services to take off and gain scale. Not only will these services bring new revenue streams, they will also help our associates differentiate themselves in their local markets.

DIGITAL SERVICES DIFFERENTIATE US

We have made the decision to boldly venture into the digital space. As a telco, we have unique assets and capabilities to make our digital services better than many of the OTT players. Many customers prefer to do business with brands they know and trust. We hope our familiar brands and pervasive customer touchpoints, both physical and virtual, can contribute to a better digital customer experience.

We cannot do it alone, and have been actively partnering other providers in the digital ecosystem – OTT players, network vendors and handset manufacturers – to discover new technologies, share investment costs and accelerate take-up of our digital services.

Amobee, our major investment in mobile advertising, creates and delivers highly targeted mobile advertisements to help brands increase the efficiency and effectiveness of their advertising spend. It counts major global brands among its

clients. Amobee's revenue more than doubled during the year, with revenues from America, Europe and Asia.

We have announced plans to allocate up to S\$2 billion for investments in the digital business. However, we note that valuations of internet companies are at record-high levels, and we will remain disciplined about how we acquire new capabilities to build these digital businesses.

GETTING THE BEST FROM OUR PEOPLE

We have made good progress since we started on our transformation. To succeed, we need our people to put in their best.

To help achieve this, we have made key changes to our compensation structures and aligned our staff behind a common set of core values and leadership behaviours. These changes affect all our staff, whether they are from the traditional core business or are digital natives who have been hired or have joined the Group following recent acquisitions.

We strive to provide a working environment that fosters creativity and innovation. Our staff engagement scores showed positive improvements, and continue to be at healthy levels. For our digital talents, we also introduced a different risk-reward balance, with remuneration schemes not unlike those in the Silicon Valley, which are typically tied to the value of the business and involve shares in the investee company.

A BRIGHT FUTURE

There is no doubt that the future is a digital one, and those who are fast to adapt to the new reality stand to gain the most. We have been quick to recognise and respond to these changes – as we grow our core business and execute our strategy in the digital space.

We have come a long way. I am confident of our prospects. I look forward to updating you on the next leg of our exciting transformation journey.

5. DIRECTORS' CONTRACTUAL BENEFITS

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit by reason of a contract made by the Company or a related corporation with the Director or with a firm of which he is a member, or with a company in which he has a substantial financial interest except as disclosed in the notes to the financial statements and in this report.

6. PERFORMANCE SHARES

The Executive Resource and Compensation Committee ("**ERCC**") is responsible for administering the SingTel performance share plans. At the date of this report, the members of the ERCC are Kaikhushru Shrivastava (Chairman of the ERCC), Simon Claude Israel, Fang Ai Lian and Peter Edward Mason AM.

The SingTel PSP 2003 was implemented with the approval of shareholders at the Extraordinary General Meeting held on 29 August 2003. The duration of the SingTel PSP 2003 was 10 years commencing 29 August 2003.

At the Extraordinary General Meeting held on 27 July 2012, the shareholders approved the adoption of the SingTel Performance Share Plan 2012. The duration of the SingTel PSP 2012 is 10 years commencing 27 July 2012. This plan gives the flexibility to either allot and issue and deliver new SingTel shares or purchase and deliver existing SingTel shares upon the vesting of awards.

The SingTel PSP 2003 was terminated following the adoption of the SingTel PSP 2012, without prejudice to the rights of holders of awards accepted and outstanding under the SingTel PSP 2003 as at the date of such termination.

The participants of the performance share plans will receive fully paid SingTel shares free of charge, the equivalent in cash, or combinations thereof, provided that certain prescribed performance targets are met within a prescribed performance period. The performance period for the awards granted is three years, except for Restricted Share Awards which have a performance period of two years. The number of SingTel shares to be allocated to each participant or category of participants will be determined at the end of the performance period based on the level of attainment of the performance targets.

For the financial year ended 31 March 2014

6. PERFORMANCE SHARES *(Cont'd)*

During the financial year, awards in respect of an aggregate of 12,587,199 and 23,494 shares granted under the SingTel PSP 2003 and the SingTel PSP 2012 respectively were vested. The awards were satisfied in part by the delivery of existing shares purchased from the market and in part by the payment of cash in lieu of delivery of shares, as permitted under the SingTel PSP 2003 and the SingTel PSP 2012 respectively.

As at 31 March 2014, no participant has received shares pursuant to the vesting of awards granted under the SingTel PSP 2003 and the SingTel PSP 2012 which, in aggregate, represents five per cent or more of the aggregate of -

- (i) the total number of new shares available under the SingTel PSP 2003 and the SingTel PSP 2012; and
- (ii) the total number of existing shares purchased for delivery of awards released under the SingTel PSP 2003 and the SingTel PSP 2012.

Non-executive Directors are currently not eligible to participate in the SingTel performance share plans.

7. AUDIT COMMITTEE

At the date of this report, the Audit Committee comprises the following members, all of whom are non-executive and the majority of whom, including the chairman, are independent -

Fang Ai Lian (Chairman of the Audit Committee)
 Bobby Chin Yoke Choong
 Dominic Chiu Fai Ho
 Christina Ong (appointed on 2 May 2014)
 Peter Ong Boon Kwee

8. UNUSUAL ITEMS DURING AND AFTER THE FINANCIAL YEAR

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen during the financial year or in the interval between the end of the financial year and the date of this report which would substantially affect the results of the operations of the Group for the financial year in which this report is made, or render any item in the financial statements of the Group and Company for the current financial year misleading, and/or affect the ability of the Group and the Company in meeting the obligations as and when they fall due, except as disclosed in the notes to the full financial statements.

The Summary Financial Statement set out on pages 15 to 30 was approved by the Board of Directors on 14 May 2014 and was signed on its behalf by -

Independent Auditors' Report

To the Members of Singapore Telecommunications Limited

For the financial year ended 31 March 2014

The accompanying Summary Financial Statement of Singapore Telecommunications Limited (the "**Company**") and its subsidiaries (the "**Group**"), which comprise the summary statements of financial position of the Group and the Company as at 31 March 2014, and the summary income statement and summary statement of comprehensive income of the Group for the year then ended, and related notes, are derived from the audited financial statements of the Group for the year ended 31 March 2014. We expressed an unmodified audit opinion on those financial statements in our report dated 14 May 2014.

The summary financial statements do not contain all the disclosures required by Singapore Financial Reporting Standards. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of the Group.

Management's Responsibility for the Summary Financial Statements

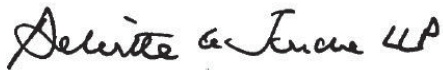

Management is responsible for the preparation of a summary of the audited financial statements in accordance with Section 203A of the Singapore Companies Act, Chapter 50 (the "**Act**"). In preparing the summary financial statements, Section 203A of the Act requires that the summary financial statements be derived from the annual financial statements and the Directors' report for the year ended 31 March 2014, be in such form and contain such information as may be specified by regulations made thereunder applicable to summary financial statements.

Auditors' Responsibility

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Singapore Standard on Auditing 810, "Engagements to Report on Summary Financial Statements".

Opinion

In our opinion, the summary financial statements are consistent, in all material respects, with the audited financial statements and the Directors' report of the Group for the year ended 31 March 2014 from which they are derived and comply with the requirements of Section 203A of the Act and the regulations made thereunder applicable to summary financial statements.

Extract of the Independent Auditors' Report On The Full Financial Statements

For the financial year ended 31 March 2014

An unmodified audit report dated 14 May 2014 has been issued on the full financial statements of Singapore Telecommunications Limited and its subsidiaries for the financial year ended 31 March 2014. The audit report is reproduced as follows:

Independent Auditors' Report To the Members of Singapore Telecommunications Limited

For the financial year ended 31 March 2014

Report on the Financial Statements

We have audited the accompanying financial statements of Singapore Telecommunications Limited (the "**Company**") and its subsidiaries (the "**Group**") which comprise the statements of financial position of the Group and the Company as at 31 March 2014, the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 112 to 204.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act (the "**Act**") and Singapore Financial Reporting Standards and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair income statement and balance sheets and to maintain accountability of assets.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

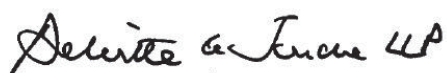

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 March 2014 and of the results, changes in equity and cash flows of the Group and changes in equity of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiaries incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

Notes:

⁽¹⁾ This table is compiled on the basis that each holding of CUFS is a separate holding and, accordingly, the holding of shares by CHESS Depository Nominees Pty Limited is ignored.

⁽²⁾ Based on information available to the Company as at 30 May 2014, approximately 48% of the issued ordinary shares of the Company is held by the public and, therefore, Rule 723 of the Listing Manual issued by the Singapore Exchange Securities Trading Limited is complied with. The percentage of issued ordinary shares held by the public is calculated based on the number of issued ordinary shares of the Company as at 30 May 2014, excluding 996,487 ordinary shares held as treasury shares as at that date.

⁽³⁾ A marketable parcel is defined in the ASX Listing Rules as a parcel of securities of not less than \$500 in Australian dollars, based on the closing price of the securities on the ASX.

⁽⁴⁾ As at 30 May 2014, the number of ordinary shares held in treasury is 996,487, and the percentage of such holding against the total number of issued ordinary shares (excluding ordinary shares held as treasury shares) is 0.01%.

SHARE PURCHASE MANDATE
