Enable 5G On and standalone settings

For iOS

1. Go to device **Settings** > **Mobile Service**.

2. Tap on **Mobile Data Options**.

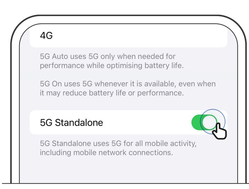

3. Tap on **Voice & Data**.

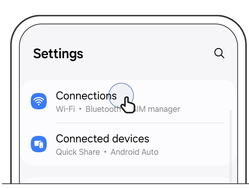

4. Select **5G On** and enable **5G standalone** (if applicable).

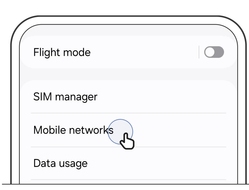

For Android

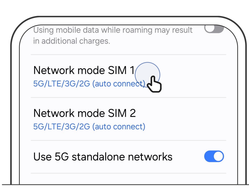

1. Go to device **Settings** > **Connections**.

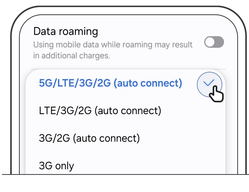

2. Tap on **Mobile networks**.

3. Tap on **Network mode** and select **5G/LTE**.

4. Enable **Use 5G standalone networks** (if applicable).
