The contract term for the Customised Scheme is three (3) years and for each circuit subscribed under the Customised Scheme is one (1) year.

Terms and Conditions:

1. The service(s) subscribed under the Customised Scheme are solely for the purpose of connecting to an international gateway for international services, with the head-end connecting to the customer's POP and the tail-end connecting to the customer's end-user's premises.
2. There shall be no auto-renewal for the Customised Scheme.
3. Should the customer request to relocate the head-end circuit, that request shall be deemed to be a request for the termination of the existing circuit and a request for the supply of a new circuit at the requested new location. The premature termination charge (**PTC**) shall be waived for the first relocation provided the customer does not terminate the circuit during the contract term. The applicable relocation and one-time charges shall apply. For all subsequent relocation(s), PTC shall apply.
4. The customer may migrate its existing 2M DigiLink circuits to the Customised Scheme. Circuits that are still within contract must complete the contract term at the current monthly recurring charge before the circuit can commence a new contract term at the monthly recurring charge in the table above.
5. All other terms and conditions of the SingTel DigiLink service shall apply.

Suspension and Termination Provisions:

1. In the event that the customer terminates a circuit subscribed under the Customised Scheme prior to the end of the contract term, the customer shall be liable for a premature termination charge (**PTC**) of the 100% of the remaining contract value.
